YOU GET PAID TO RIOT? YOU MIGHT BE A PATRIOT

Nationalists fight for freedom, and patriots, well they get paid. The patriots die on the staged war field and the nationalists die on the waged war field. In the end, it's all about survival, and those who are living longer than us or you or nobody, may not have much at all. When heard screaming from a collapsed military installment, many people have heard "ALIENS" as "ERIE UNS", it sounds like Aryans. And well, it's always been ALIENS. ALWAYS! SINCE THE DINOSAURS! Hitler was in search of them, he went to war against them. Area are a land guage suffix. Place names. Aryan terminates the area with "N". South Park USA is Mount Erie. Who's Mt Royal?

IS NARCISSISM BRAIN DAMAGE? A RACIST MIND A PHRENOCOLOGICAL IRRITANT?

"narcissism" is a patterned neuro physical response destroying 50,000,000 yrs evolution. Head shrinking is a hollywood italo mobster reference to psychologists. Could racist minds be a response to allergens in foods? YES! Broka damage is nasal, is narcissist.

Deficient conscience: unscrupulous, amoral, display, fraudulent, deceptive, arrogant, exploitative; a con artist and charlatan; domineering, contemptuous, vindictive.

Unprincipled Narcissist

Sexually seductive, enticing, beguiling, tantalizing; glib and clever; disinclined to real intimacy; indulges hedonistic desires; bewitches and inveigles others; pathological lying and swindling. Tends to have many affairs, often with exotic partners.

Mal Adaptive

ADAPTIVE SERVITUDE PRONE TO MURDER. Adaptive narcissism (characterized by authority and self-sufficiency) and maladaptive narcissism (characterized by exploitative, entitlement, and exhibitionism)

Amorous Narcissist

Sexually seductive, enticing, beguiling, tantalizing; glib and clever; disinclined to real intimacy; indulges hedonistic desires; bewitches and inveigles others; pathological lying and swindling. Tends to have many affairs, often with exotic partners.

Compensatory Narcissist

Seeks to counteract or cancel out deep feelings of inferiority and lack of self-esteem: offsets deficits by creating illusions of being superior, exceptional, admirable, noteworthy; self-worth from self-enhancement.

Elitist Narcissist

Feels privileged and empowered by virtue of special childhood status and pseudo-achievements: entitled facade bears little relation to reality; seeks favored and good life; is upwardly mobile; cultivates special status and advantages by association.

JAIL FOR ALIENS, OR JAILS FOR HUMANS? THE COLOSSUS REVEALED

Long cylindricals emit different energy fields, and if you've ever seen your friend locked up and thrown in jail crying all the way, you'll know that the wall is a law that was broken and fell bringing about the dark ages. Sardinians laughed sardonically when they executed their elderly. Probably because they didn't understand what was happening and that flexed their brains in ways that produced laughing. Phrenology is laughter is the best medicine. Observing others is the first step to understanding their temperaments.

SUN PRESSURE IS DIFFERENT THAN SUNSPOTS

On the left, solar maximum erupts magnetic coils that eject solar wind into the solar sphere. On the right is minimum. On November 29th, Sunday, scientists recorded a M4 class flare, "X-rays and UV radiation from the flare ionized the top of Earth's atmosphere, producing a shortwave radio blackout over the South Atlantic... Ham radio operators and mariners may have noticed strange propagation effects at frequencies below 20 MHz, with some transmissions below 10 MHz completely extinguished."

scientificamerican.com/article/lights-out-astronomers-illuminate-the-mystery-of-vanishing-quasars/

This universe is saturated with life. Quasars are a blue light radio phenomenon and more and more have been popping up since the atom bomb. When parents drop thier kids off and the world stops playing fair. They take notice. Evolution takes place everywhere and bacteria survives in space. It may have in fact been

designed to survive in space. It may also have evolved over timescales unmeasurable by life that exceeds the age to our own solar system. So next time you hear a ghost, remember, they evolved under different conditions with different sensory perceptions, and for them to simply make themselves known to another is a feat all unto itself. Heaven and hell industries have developed in parallel, many across the world. They are all different. Maybe you can help by building immortal industries accessible to all, science and technology that everyone can access. Materials used to fix leaky pipes 5 miles in the earth, or maybe you can become a genetically advanced interdimensional traveller on a spaceship? You decide.

frontiersin.org/articles/10.3389/fspas.2016.00028/full

Very Long Base Interferometry (VLBI) has found Quasars in the millions rather than the hundred thousands. Once thought to be the most distant objects in the universe, new solar spherical physics could place them much closer as they are found in the plain light spectrum and radio. In the past the Earth's satellites were synced to the ITRF (International Terrestrial Reference Frame) and it's abstraction from galactic pin down points required recalibration every few years. Two systems are better than one. This along with space bacteria travel, and evolution is evidence to alien intelligence.
